

Joint run # 2137 Hash House Harriettes Tue 10th June 2008

Gladesville Bowling Club on Swan Street – aptly named after all the rain.

A large pack with representatives from many hash chapters, including about 12-15 Posh, gathered in the car park some donned in yellow or pink as requested by the Harriettes for their Cancer fund raising venture. Most hashers had forgotten. It was not raining then but the hares, **Motor Mouth** and **Sex on Legs** had had a difficult day getting (the trail) laid.

We set off quickly in a loop around the little football field squelching mud led by **Music Man, Yackitty, Cinders** and **Saltpeter** before heading down some roads where the front runners quickly checked out the on-backs. Fortunately it allowed the back walkers **Lizard, Boomerang** and **Nympho** amongst them, to catch up for a while.

The trail wound down in to the gully where it narrowed to single file walking over the slippery board walks. Nice country in the day time no doubt and there was even a little moonshine to light the way. **Tic Toc** caught up and chatted happily about America and it's cities with **Buck Jumper** before taking the chance to run through. **Druid** walked with the ladies feeling the pinch of his injuries. **Darwin Don** was there somewhere as well.

The front group had disappeared before the walkers entered the cemetery and wandered amongst the tombs. No ghosts this time. The trail was hard to pick up but finally found by **Ace** who led down the hill and back via the roads.

The bucket was just about packed up when another crowd including **Licorice Nibbles** and **Klangers** staggered in having been completely lost.

Brushstrokes, GM, announced the collection buckets were available and the tinkle of coins and some folding ones floated in.

Laundramat made an announcement and recommended the "Last Hash Relay" to everyone. He doesn't think it will be the last one however.

Back at the club **Captain Knockers** announced the final divey up of the takings from the Interhash St Patrick's Day Run – in cash. There were many offers to "look after" the money – surprising how easy it is to get volunteers sometimes. **Virginius Illigitimus** in a gesture of great charity donated the money for the Posh into the Cancer Fundraising. Other Hash representatives such as **Truck Tyres** muttered about some Hashers having too much.

No Down Downs but a lot of laughs, good food and a joke from **Tic Toc**.

On On Guest writer – Mini

Next Weeks Run

RUN # 2138 16th June 2008

Who: Lost One and Kitty

Where: ENNIS ROAD below BRADFIELD HWY, KIRRIBILLI

The Run: Remember the beautiful foreshore scenery and bridge climb at Kitty's recent Glebe run? Well he's at it again but even closer to home beginning at lovely Milsons Point. Sightings of 24/7 Kevin may be possible – any volunteers for Butler duty?

ON ON: Kirribilli Hotel – KIRRIBILLI. KL is assisting Lost One who fortunately is in charge of the food. So forget that Mexican gloop and the usual Indian mess at this location. No **no**, this time it is top pub tucker with a quality wine and all well priced. Don't miss it! This is world class hashing.
