### Moochers mill, headland thrill, 'Lulu Grill, icecream swill

#### **The Run**

An evening sultry after the big wet and down on the Manly beach saw a large pack gathered. The Moocher hares (**Polish** and **Muff**) had promised an exciting summer run, even though it was in Manly at the Honolulu Grill (Moocher HQ). There were not any complaints from **Goonshow** or **Spud** as a pair of fine breasts added to the excitement. **Hanoi Bill** in his new car felt right at home, as did **Smackers** on his own personal set of wheels.

**Darwin** stopped a few young hotties but sent them on their way before heading off with **Scud** and **Paridou's Pompidour** for Queenscliff. The runners and walkers split at the SLSC with **Kitty** and the **Hoarse Whisperer** leaping over the lagoon outflow to take on the seashore. **Frenchie** took the highroad as **Mr Neat** found out what **Polish** meant when he said the bow tie was so he could serve up Luksusowa on the Rocks.

Through the tunnel the pack went and over the thankfully dry rocks round the headland to Freshwater. **Furkhand** warned **Superglue** not to get washed away as **Captain Bligh** bounced his way onto the beach. Past more nubile wenches the runners and walkers briefly joined forces before the next sojourn over the rocks round to Curl Curl,

**Lost Patrol** found his way into Harbord (oops Freshwater) taking **Grape** and **Yakkity** with him as he went. **Pee Dub** was not distracted as he found the short cut past the Hilton Happy hour catching up with **Ayatollah** and **King Arthur** on the way. From the top of the Cliff it was all down hill and back along the beach to the bucket. Gathered around the bucket **Dr Jeckyl** and **Robbo** joined with **Swampy** and other locals admiring the beautiful beaches and bodies we have in Sydney. **Plunger** and **Kitty** took the plunge and cooled off, have built up a sweat chasing **Bennie** around the trail.

On in to the Honolulu Grill for a solid meal followed by an Ice Cream dessert. The moochers all had something to say with Polish telling jokes and keeping the throng engaged. Once again the next weeks hare e-Shit left the bucket hoping somebody else would bring it for him (although he was there to do his duty. The President Calici welcomed the three visitors with his three questions. And so the throng drifted into the steamy night.
